## Field Shelter

### COVERTEC – a stable shelter for every weather

*The mobile COVERTEC field shelter is a solid whilst easy construction*

#### Mobile field shelter to protect your animals

The mobile COVERTEC field shelter is a solid whilst easy construction and this flexibility makes it suitable for a variety of applications.

The shelter can be set up in a short amount of time and with only 2 people. The three panels provide stability and allow a flexible relocation. The fencing around the shelter as well as the arch above are made out of galvanized steel pipes. The arch construction will be covered with our PES tarpaulin which will then be tensioned against the metal framework.

#### Application Areas:

- Shading and sun protection for horses, cattle, sheep and virtually any other animal.
- Carport for cars, coaches, trailers, boats, etc.
- Shelter for tools and / or machinery like lawn mowers, tractors, etc.
- Calf house
- Dry storage area for hay, straw, fire wood, etc.

#### Scope of Delivery:

- Three galvanized side-panels
- Galvanized arch construction ("roof")
- PES-tarpaulin, prefabricated
- Stainless steel ratchets 25 mm incl. PES-strap for tensioning of the tarpaulin
- Aluminum pipes for tensioning

The COVERTEC field shelters are available in the following two sizes:

Width	Depth
3,60 m	3,60 m
6,00 m	6,00 m
